Perl Hacks, Perl School, and the future of Perl publishing

May 28, 2020 by [brian d foy](#)

Dave Cross, long-time Perl user, trainer, and author, recently released [The Best of Perl Hacks](#), a curated collection of his best posts from his [Perl Hacks blog](#). His imprint, [Perl School](#), has published six e-books, including two that I wrote.

There's an unrelated book, [Perl Hacks: Tips & Tools For Programming, Debugging, And Surviving](#), by chromatic, Damian Conway, and Curtis "Ovid" Poe. It's also very good, but completely separate from Dave's.

What next?

Dead
trees?

Your book?

Write for us

Share your Perl expertise with our community.

At Perl School, we're always on the lookout for skilled and passionate Perl programmers who are eager to share their knowledge with our growing community of readers. If you have a unique perspective, valuable insights, or practical techniques that can help others excel in Perl programming, we'd love to hear from you!

Why Write for Perl School?

- Reach a dedicated audience of Perl enthusiasts, programmers and developers
- Collaborate with other esteemed Perl authors and experts
- Enhance your professional profile and reputation within the Perl community

What We're Looking For:

- Well-researched and engaging content that covers a wide range of Perl topics, from beginner tutorials to advanced techniques and best practices
- Real-world examples and case studies that demonstrate the practical applications of Perl programming
- Insightful articles on the latest trends, updates, and news in the Perl ecosystem

Submission Guidelines:

- Submit a brief proposal outlining your article or ebook idea, including the topic, target audience, and key takeaways
- Include a short author bio, highlighting your relevant experience and expertise in Perl programming
- Provide links to any previously published work, if available

Our editorial team will review your submission and respond within 2-3 weeks. If your proposal is accepted, we'll work closely with you to develop the content and ensure it aligns with our quality standards and brand values.

We look forward to welcoming you to our team of talented authors and sharing your Perl expertise with our community of readers. Submit your proposal today and join us in our mission to empower Perl programmers worldwide.

Send your proposals to hello@perlschool.com.
